FATAL ACCIDENT AT COALGATE

W. H. HICKERSON DIES FROM EFFECTS OF FALL DOWN STAIRWAY.

This morning Ford, the plumber, received word that his friend, W. H. Hickerson, a member of the Holdenville Plumbing Co., and of the firm of Flanagan & Hickerson of Tulsa, had died at Coalgate from the effects of a fall. The accident took place about 3 o'clock and Mr. Hickerson died about 4. He has been working on a contract for sometime, and this morning intended to catch an early train. In some way he stumbled on the stairway and fell to the bottom, suffering injuries from which he died. The accident occurred at the Meyer hotel.

A. O. Wall, his partner at Holdenville, and Mr. Flanagan of Tulsa, passed through this morning en route to the scene of the tragedy. The body will be taken to Pawhuska tomorrow for interment.

Deceased was probably sixty years of age. He is survived by a wife and three sons. He is well known to many Ada people, having lived in this part of the state for a number of years.

INDIANS MAY

APPEAL TAX CASE

Oklahoma City, Aug. 10.—A writ of error has been received by the clerk of the state supreme court, from the United States supreme court, directing that an appeal be granted in the case brought by attorneys for some 12,000 Choctaws and Chickasaws who are contesting taxation of their allotments by the state.

The state supreme court, in an opinion by Judge Jesse J. Dunn decided on March 21, 1911, that the lands are subject to state taxation, holding that the Atoka agreement, which provided for the exemption, had been superseded by the act of congress of 1908. The exemption under the Atoka agreement, was for 21 years from the date of patent, provided the land should remain in the possession of the allottee.

J. F. McMurray and W. A. Ledbetter, representing the Indians filed suit in the superior court of Logan county, July 12, 1910, against state auditor M. E. Trapp, the state board of equalization and the county officials of all the counties in the Choctaw and Chickasaw nations, a great part of Eastern Oklahoma. Superior Judge Sandlin decided against the Indians and was sustained by the supreme court in all his holdings.

Chief Justice White of the United

States supreme court signed the writ of error August 1, commanding the record to be certified up for review by that court.

CONGRESS MAY ADJOURN

SOMETIME NEXT WEEK
Washington, Aug. 10.—Indications today were that congress would adjourn next week.

House leaders predicted that an agreement would soon be reached on the wool bill and some of them thought that congress might wind up as early as next Tuesday. Senator Penrose said that everything pointed to adjournment by August 19 at the latest.

The senate leaders will insist on holding long speeches and probably will impose night sessions to hurry the remaining business.

The house is annoyed at the delay in compromising the wool bill. If the wool bill conferees do not speedily agree, it is probable the house will move to discharge them.

GEN. GEO. W. GORDON

PASSES AWAY

Memphis, Tenn., Aug. 9.—George W. Gordon, soldier, lawyer and statesman, is dead. Worn by an illness dating from his last political campaign, when he was re-elected to the National House of Representatives, the last general of the Confederacy to serve in that body answered the summons to join the invisible majority here today. Funeral arrangements have not been announced, but the obsequies will be it is expected, of a military character, and the body will be laid to rest in this city, probably Sunday. Weakened by the heat of the last twenty-four hours and his feeble frame wasted by the ravages of a slow illness, the light of General Gordon's life grew dimmer hourly today. When, following a restless night, he woke from fitful sleep in the early morning hours, the loving watchers at his side saw that the end was but a question of hours, perhaps minutes. As the end approached, peace seemed to envelope his face, for he smiled, as with comforting words he bade relatives adieu. He died at 4 o'clock this afternoon. At the bedside of General Gordon

when he died were his wife and other relatives.

Has Eventful Career.

George Washington Gordon was born in Giles County, Tenn., Oct. 5, 1836. In his early boyhood his parents removed to Texas, and later to Mississippi, but as a youth, he returned to Tennessee and entered the Western Military Academy, from which he was graduated in 1859. His first activity was as a civil engineer.

At the outbreak of the Civil War, General Gordon enlisted as drill master of the Eleventh Tennessee Infantry, C. S. A. Within a few weeks he was made a captain and was later promoted to a lieutenant-colonel's rank, and in about a year was commandant colonel. In 1864 he was named brigadier-general. He proceeded with distinction with a number of engagements and at one time was taken prisoner but was exchanged in ten days.

Life After Civil War.

At the close of the war, Gen. Gordon studied and practiced law, becoming attorney general of this (Shelby) county. In 1883 he was appointed an attaché of the federal department of the interior, serving four years in the Indian country. At the end of Grover Cleveland's first presidential term he returned to Memphis and resumed the practice of law. In 1892 he was elected superintendent of the Memphis public schools. He was elected a member of the Sixtieth Congress from the Tenth Tennessee District and re-elected to the Sixty-first and Sixty-second Congresses. He was the only Confederate General numbered in the present Congress.

Made Against His Health.

General Gordon was chosen Commander in Chief of the United Confederate Veterans at the reunion of 1910 at Mobile, Ala. He was re-elected to that position at the 1911 reunion at Little Rock, Ark., last May. Immediately following the close of his last political campaign General Gordon's health began to fail. Asthma in a severe form developed. Notwithstanding the poor state of his health, he attended the sessions of congress and his vigor was partially restored. Just before the Little Rock reunion he suffered an attack of ptomaine poisoning and against the advice of physicians and wishes of relatives, insisted on attending the reunion. While in Little Rock he became very weak and took but small part in the reunion affairs.

Gradually Becomes Weaker.

Several weeks ago Gen. Gordon went to a National health resort, but failed to be benefited thereby and returned to Tennessee. He spent several days in the country, but his health did not improve and he was brought to Memphis last Monday. Uraemia developed and in his weakened condition he could not withstand the added complications.

Meeting of North Ada Patrons' Club.

North Ada Patrons' Club met with Mrs. Will Guyer Wednesday afternoon. A large number were present and a pleasant and profitable time was had. The club will meet with Mrs. B. A. Smith corner of 8th and Stockton Wednesday afternoon, Aug. 23 from 3 to 5, when an interesting program will be rendered, subject for discussion by the club is as follows.

Economy of Strength, Restful Objects, Helpfulness of Prayer, Keeping the Confidence of Your Child. Each and every patron of North Ada is urged to be present.

WILL BE TRIED AT WEWOKA

PRELIMINARY HEARING OF EDWARDS RESULTS IN HIS BEING HELD FOR TRIAL.

CHANGE OF VENUE TO WEWOKA

Judge McKeown Will Take Up Case at Wewoka on Convening of Court Monday Morning.

The preliminary hearing of the case against Frank Edwards charged with the murder of Wm. Gray, occupied most of the morning in Justice Brown's court. At noon it was not certain whether all evidence was in or not, but when court again convened, about 2 o'clock, County Attorney Wimblish stated that there was nothing more that he desired to offer, and Attorney Roland for the defense stated that the defense had nothing to offer. Justice Brown then announced that the evidence was sufficient to warrant the defendant being held.

Immediately after the close of the hearing, the defense made application to Judge McKeown for a change of venue. The motion was granted and the case will be taken up at Wewoka Monday morning, August 14.

Great interest was displayed in the case, the court room being crowded to suffocation from the first minute to the last. Even the windows opening on the roof on the east side were filled with spectators.

When brought into the court room Edwards stated that he had no attorney and no money with which to employ one. Thereupon Judge Brown appointed R. C. Roland to represent him in the trial. He moved to waive preliminary hearing, but was overruled by the court.

Deputy Sheriff R. E. Duncan testified that he had gone to Hart Sunday morning and had examined the remains of the deceased and the place where the body was found. The body had been dragged about 50 yards after being dumped from the wagon, and some hair had been left on the rocks over which it was dragged. The tracks of the man dragging the corpse were apparently made by shoes of No. 8 or 9 size, with sharp square heels. He had not examined the shoes of the accused and could not say whether or not they corresponded to the tracks made near the body.

B. E. Ridgeway, who lives eight miles from Roff on the Roff and Pontotom road, and only a few hundred yards from where the crime is supposed to have been committed, testified to having seen defendant in company with an old man pass his

HAVE YOUR PICTURES

Framed at

SMITH'S

203-5 W. Main St.

home early in the morning of last Thursday. They were in a wagon pulled by a team of mules and with a horse tied or following behind. About half an hour later, just after he and his daughter started to Roff, defendant overtook them coming back in a gallop, but slowing to a long trot as he passed them, and turned into a left hand road. He had heard a shot fired somewhere just after the wagon passed, but could not say from what direction it came.

Miss Willie testified to about the same facts, with the additional fact that when the wagon passed the house going east one of the men was riding in the rear part of the bed, and that when it passed them going west, she saw one apparently lying in the bed. As soon as the wagon had turned into the other road, the driver got out and seemed to be trying to cover the other with a sheet.

W. C. Roland, who lives near Hart, had examined the remains soon after being found, and located at least five holes in the lower part of the back side of the head. They were large enough to have been made by a 32-calibre bullets.

Wm. Walls was among the first to

ing to kill him in case he failed to make good.

He had also stated that the murderer had gone south, tearing down the fence to the pasture on that side of the road, and would show the torn fence to anyone who would go with him to the spot. Tuesday, when he went over the route taken by the wagon, he found the fence intact and a field instead of a pasture there. On cross examination he stated that there was a gate on each side of the lane at that point. He also told of the finding of a dish pan and other things belonging to the outfit, thrown away and covered with blood. Witness also told of the finding of a gun near Edwards' camping place near Hart. It was a sort of army musket, and a muzzle loader. It had apparently been fired recently.

The saddest feature of the case was the grief displayed by Edward's mother, who attended the trial. The awful position in which her son is placed seems more than the faithful mother can bear.

THE OLD METHOD OF KILLING CORNS

RESTORE GRAY HAIR TO NATURAL COLOR

By Common Garden Sage, a Simple Remedy for Dandruff, Falling, Faded, Gray Hair.

The old idea of using sage for darkening the hair is again coming in vogue. Our grandmothers used to have dark, glossy hair at the age of seventy-five, while our mothers have white hair before they are fifty. Our grandmothers used to make a "sage tea" and apply it to their hair. The tea made their hair soft and glossy, and gradually restored the natural color.

One objection to using such a preparation was the trouble of making it, especially as it had to be made every two or three days, on account of souring quickly. This objection has been overcome, and by asking almost any first-class druggist for Wyeth's Sage and Sulphur Hair Remedy the public can get a superior preparation of sage, with the admixture of sulphur, another valuable remedy for hair and scalp troubles. Daily use of this preparation will not only quickly restore the color of the hair, but will also stop the hair from falling out and make it grow.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

As we remarked before, the lawless element always goes too far in its resentment of interference, and never fails to make a break that will bring down vengeance on its head. A case in point recently occurred in Chickasha. A bootlegger thrashed a citizen who, he thought, had reported him to the officers. Immediately the indignation of the law abiding element flamed up, and now it begins to look like the bootleggers will have to pack up and move for a season.

Funny how solicitous the big protected interests become concerning the welfare of the farmer whenever

they (the interests) are threatened with a reduction of the tariff. It must be remembered, however, that the farmers hold the biggest share of the votes of the country. The Eastern manufacturers have gold bricked the farmers several times before, but at this juncture we hardly think they will succeed, for the farmers have learned their lesson and know that the affection the Easterners have for them is just like that felt by the wolf for the lamb.

Perhaps the hot wave is only a reflection of the feelings of the general public when the state board of equalization announced its raises in valuations over the state.

Poor old Diaz seems to have followed the late lamented Mr. McGinty to the bottom of the sea, so far as the public is concerned. It has been weeks since even a ten line item about him has appeared in any newspaper.

THE VALUE OF COURTESY.

The News is in receipt of a pamphlet on the "Value of Courtesy," it is published by the Illinois Central railroad, and while intended primarily for its employees, is full of food for thought for every one. Of course patience and self-control is a valuable part of a railroad man's makeup, it goes without saying that it brings as good results when applied elsewhere. Perhaps no class of men on earth has as great a need of this quality of courtesy and forbearance as railroad employees, for the average citizen is always ready to find fault and raise a rough house with one of them when under similar conditions he would not think of such a thing with other people. Yet the railroad man is expected to meet the worst old grouch that ever afflicted the public with a smile really due only to the refined ladies who timidly approach the ticket window to ask for a little information or who politely request a little assistance from a train man with their baggage.

In our everyday life we see men who are succeeding simply because they have the power to control their impulses to kick a grumbler out of the house and smile him into a good humor. We always steer clear of the man who is continually raising sand about something and growling at everything that one does for him because it is not more. It is seldom indeed that a grouch succeeds anywhere.

FARM PRODUCTS IN EXPORT TRADE OF UNITED STATES

American farmers contributed over a billion dollars' worth of merchandise, or more than one-half of the domestic products exported from the United States in the fiscal year that just ended. Of the high-record exportation of \$2,013,549,025 worth of domestic merchandise in the fiscal year, 1,024 million dollars represented the value of products drawn directly or indirectly from the farm.

Of the 10 chief agricultural products exported, cotton leads with a total of 555 million dollars, the next largest items being, in the order named, meat and dairy products, 150 million; breadstuffs, 124 millions, unmanufactured tobacco, 39 million; fruits and nuts, 25 million; oil cake, 20 million; cattle and other live animals, 19 million; cotton seed oil, 17 million; vegetables, 5 1-2 million; and hides and skins, 5 million dollars these 10 articles alone showing a total exportation for the year of 990 million dollars. The remaining agricultural products exported in sums ranging from 1 million to 5 million dollars include Porto Rican coffee, 5 million dollars; grease, 5 million; glucose, 3 1-2 million; seeds, 2 1-2 million; hops, over 2 million; ginseng and other medicinal roots, 1 3-4 million; eggs, 1 3-4 million; corn oil, 1 1-2 million; hay, 1 million; and hair, a little over 1 million dollars.

This exportation of 1,024 million dollars worth of farm products, while somewhat larger than in the preceding year, is still below the record made in 1907, when 1,050 million dollars' worth of merchandise of that class left the country. Comparing the 1911 exports with those of 1907, cotton increased from 481 million dollars in 1907 to 585 million in the year just ended. This increase, however, is solely due to higher prices prevailing in 1911, since in that year but 4,034 million pounds were exported, compared with 4,518 million pounds in 1907. In fact cotton prices show a steady upward tendency, the average export price for the fiscal year 1911, 14 1-2c per pound, being the highest since 1873. Hog products have decreased in value of exports from 124 million dollars in 1907 to 100 million in 1911; beef products, from 39 million to 11 million; and butter and cheese, from 4 1-2 million to 2 2-12 million. Cattle and other animals also share in the decreasing tendency, their exports having fallen from 41 million dollars in 1907 to 19 million in 1911. Breadstuffs show a marked decline, from 263 million dollars in 1900 to 184 million in 1907 and to 124 million in the year just ended. This loss occurs chiefly in wheat and

wheat flour, since corn exports in 1911 were 36 million dollars in value, compared with 25 million in 1910, while those of wheat and flour as a whole showed in 1911 a total of only 71 million dollars, compared with 95 million in 1910 and 122 million in 1907.

Tobacco, fruits and nuts, and vegetables, however, have moved counter to the general downward trend in the movement of farm products, each of these classes showing gains not only over 1910 but also over the high record year 1907. Exports of tobacco increased from 33 million dollars in 1907 to 39 million in 1911; those of fruits and nuts, from 17 1-2 million to 24 1-2 million, and those of vegetables, from 4 million to 5 1-2 million dollars.

Perpetual Motion.

(With the customary apologies.)
Once within a session dreary, while the senate, hot and weary,
Pondered o'er a mooted problem that it should have met before;
While the galleries were napping,
suddenly there came a rapping,
"Gentlemen," said Sherman, tapping,
"now Wisconsin has the floor."

All within the range of hearing soon a hasty course were steering,
For the entrance, pushing, shouting,
frightened of the fate in store,
Then the silence quick was broken,
and, in answer to this token,
Ere a hundred words were spoken,
men were fleeing for the door.

While the clerks began to mutter,
with a pompous little flutter
Of the startled locks that clustered in
the pompadour he wore,
"Bubbling Bob" in exultation, plunged
into his declamation,
Though a pause in his oration echoed
with the chairman's snore.

Long he chattered, urging, doubting,
raging, ranting, soaring, spouting,
Arguing as one would argue at the
subtle age of four,
Till the shades of night were falling,
and the scribes for mercy calling,
Still, with industry appalling, he continued
with his roar.

Little recking of his danger, in there
walked a straying stranger;
Sat and listened to the discourse till
it proved itself a bore,
Then he stopped a floundering being
who had also been sight-seeing;
"Tell me," said the "ere I'm fleeing,
will he talk for evermore?"

"Stranger," said the other, "listen.
Sometime stars will cease to
glisten;
Sometime rivers will stop running,
sometime torrents cease to pour;
Sometime rocks may start to fly, sir,
you may see Niagara dry, sir,
But that pompadoured old geyser can
be silent nevermore!"
—Q. in Kansas City Journal.

Making Rubber in Texas.

The fact is not generally known, even in commercial circles, that the United States has entered the list of rubber producing countries and that the new industry is now on a permanent and rapidly enlarging basis. The first and only rubber factory in the country, says The Tradesman, is situated at Marathon, Texas. For more than two years it has been running day and night, extracting crude rubber from the wild guayule shrub.

The success of this pioneer enterprise has been so great that preparations are being made to install other factories in that section. The crude rubber that is now being manufactured there is shipped to New York, where it is refined and sold to the rubber trade for various purposes. It is in demand for the manufacture of automobile tires and for electrical equipment.

The possibilities of the guayule rubber industry in Texas are almost unlimited, it is claimed. There are more than six million acres of land in that part of the state upon which the guayule shrub may be grown as a commercial proposition. At present the supply for the Marathon factory is obtained entirely from the wild growth that abounds upon the rich lands, but steps have been taken to keep the supply replenished by scattering the seeds of the shrub and propagating it by means of cuttings. It requires about three years for the reproduction of the shrub. It attains its best growth upon land that is considered practically worthless for any other purpose. Until the discovery was made in Mexico a few years ago that the shrub contains a large percentage of rubber it was one of the most despised of all the desert vegetation. It was the bane of sheep and goat raisers, as the animals seemed to have a fondness for the leaves and branches, and as a result of eating them, rubber balls would form in their stomach, usually causing their death.

Much of the land upon which this shrub grows is owned by the state of Texas. Before the value of the wild product became generally known, a shrewd speculator offered the state land commissioner \$63,000 for all the shrub upon the lands of the state. This offer was quickly accepted. In view of the fact that the shrub now has a market value of more than \$100 per ton and that in some localities from one-half to one ton may be gathered from one acre of the desert land, some idea may be had of the profitability of this investment. The shrub grows to a height of two to two and one-half feet. Where it is desired that the plants shall reproduce themselves they are cut off at the roots. The usual method of gathering them, however, is to pull them up, roots and all. The rubber substance is found in every part of the shrub. After being baled the shrubs are hauled to the factory and put through the process that relieves them of their rubber substance.—Farm and Ranch.

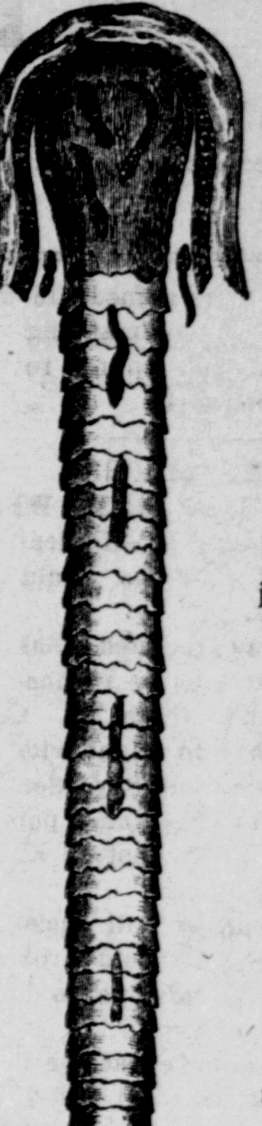

The Depressing Influence of Failure to Get On.

Many people are so constituted that almost their entire effectiveness and efficiency depend upon their prosperity. They can do a tremendous amount of work under the stimulus of success and promise. If they feel that they are getting on, advancing, they are courageous, resourceful, inventive, original; but just as soon as they feel that they are going backwards, even if through no fault of their own they become depressed, lose heart; their courage and enthusiasm evaporate; when failure stares them in the face, hope dies out and everything drops; the wind seems to go completely out of their sails, and they wilt and flap.

One of the most dangerous things for those who are in the clutches of

HUMAN HAIR ROOT

Showing Dandruff Germs At Work

WYETH'S SAGE AND SULPHUR HAIR REMEDY

Kills the Dandruff Germ and Makes the Hair Grow

Restores Gray Hair to Natural Color

FEW people are aware of the number of Dandruff Germs that infest the human hair and scalp. The germs which locate themselves in the follicle or sack which envelops the root of the hair, spend a lazy existence in sucking up the juices which should go to keep life and strength in the hair. These germs cannot be seen by the naked eye, but with a magnifying glass of from 300 to 400 diameters the spores of this hair destroyer may be seen in masses, clinging to the hair.

DANDRUFF, ITCHING OF THE SCALP AND FALLING HAIR ARE A SURE SIGN OF DESTRUCTIVE GERMS.

Wyeth's Sage and Sulphur Hair Remedy not only kills the dandruff germs and prevents baldness, but it also restores faded and gray hair to natural color.

Don't Experiment With Old Fashioned Hair Dyes

but save your hair and restore it to natural color and luxuriance by using Wyeth's Sage and Sulphur Hair Remedy.

Druggists are authorized to sell Sage and Sulphur under guarantee that the money will be refunded if it fails to do exactly as represented.

PRICE 50c AND \$1.00 AT ALL DRUGGISTS

If your druggist does not keep it send 50c. in stamps and we will send you a large bottle, express prepaid.

GWYN & MAYS DRUG CO.

discouragement is the paralysis of effort often produced by failure.

It is easy to work when we see splendid prospects ahead. When we see that our blows are telling, we can continue to swing the hammer. Few people are so constituted that they can do their best work in an apparently hopeless cause. But it is hard to work with enthusiasm and courage when everything seems to be going against us, when we can see no light ahead, no encouragement. The temptation in those trying periods of discouragement is always to give up trying, and to think that perhaps we have made a mistake in our ambition, and that it might be better to try something else.—Orison Swett Marden.

S.S.S. FOR SCROFULA NATURE'S PERFECT CURE

Swollen glands about the neck, weak eyes, running sores and abscesses, pale, waxy complexions and frail, poorly developed systems, are the most usual ways in which Scrofula is manifested. In some cases the blood is so filled with the scrofulous germs that from birth the disease shows its presence. In other cases it is held in check during young, vigorous life, but when the system begins to weaken, especially after a spell of sickness, the disease will often manifest itself in some form. S. S. S. is Nature's perfect cure for Scrofula, made entirely of healthful roots, herbs and barks, a perfectly safe medicine for young or old. S. S. S. goes into the circulation, and drives out all scrofulous matter, and supplies the blood with the healthful, vigorous qualities it is in need of. In this way it builds up weak, delicate persons and makes them strong and healthy. S. S. S. cures Scrofula because it is the most perfect of all blood purifiers. Book on the Blood and medical advice free. S. S. S. is for sale at drug stores.

Negro Draws a Life Sentence.
Oklahoma City, Aug. 10.—Life imprisonment in the state penitentiary at hard labor is the verdict returned Wednesday morning by the jury in the superior court which tried Geo. J. Palmer, negro, for the murder of Toile Wells, negro, in this city July 2 in the 700 block in East First street.

The evidence showed that Palmer cut Wells' head nearly off with a knife and it is very probable the death penalty would have been indicted but for the introduction of a bit of evidence which gave grounds for the belief that Wells had a razor in his hand when Palmer slashed him with a knife. The case to the razor was found in the clothing of Wells at the morgue, and the razor, which fitted the case, and which was offered in evidence, was found in the vicinity of the place where the crime was committed.

"When the jury was being empaneled the question was asked each juror if the action of Governor Lee Cruce in commuting John Henry Prather's death sentence to life imprisonment would have any influence with them in making up a verdict.

Summer Itch Now Relieved.

Instant relief for all kinds of summer skin trouble is found in that simple wash—D. D. D. Prescription for Eczema. Get a 25c trial bottle today and prove for yourself the merits of this wonderful prescription. We all ways recommend it for Summer itch.

Uncle Dick Floyd returned yesterday from a long trip to Granite, Hobart and Cordell. He had almost recovered from his rheumatism, when he was stricken down with an attack of tonsillitis which came near proving fatal. He reports that he never saw as much cotton in his life as there is in the western country, much of the wheat having been plowed up and the ground put in cotton. However the cotton is fine and a great amount of forage crops put in.

Kile's Auto will call for you anytime or place. Price 25c each. Phone 446. 106-3td

Notice to the Public.

On and after this date you can get "All Wingle" cigars for 5c each at JONES DRUG CO. 107-tf

Read carefully the half page ad of the Surprise store in this issue. Mr. Simpson is going to the eastern markets to morrow and before the fall stock arrives, the store must make some room. Hence the wonderful bargains offered.

Marshall Jones, who is now traveling for the N. K. Fairbanks Co., with headquarters at St. Louis, arrived this afternoon to spend his vacation with home folks. He will go to Allen from here.

LANHAM HAPPENINGS

The farmers are busy planting millet, milo maize and other small grain.

Mr. Sanders from Pittsburgh was visiting Taylor Lanham last week. Chas. Ruppee from Francis is mingling with friends here.

Quite a number of the Lanham people attended the picnic at Parish Chapel last Thursday. Virgie Bohannon and uncle from Vanoss were pleasant visitors here Sunday evening.

Mr. and Mrs. Ethridge were visiting friends at Center Sunday.

Dr. Woods and wife from Memphis Tenn., Mrs. Mason and son from Ada and Susie Parker of Center were the guests of Mr. and Mrs. J. W. Gaar and family last week.

Little Sadie Standridge is very ill at present writing.

Miss Vina Meeks is visiting her brother at Maxwell.

Mrs. Julia Williams from South McAlester is visiting her sister Mrs. Ruth Lanham.

Scott Lanham has been ill for

DR. H. H. WYNNE, OCULIST, Oklahoma City Specialist of the Eye, Ear, Nose and Throat will be professionally in Ada, Monday, August 21. Glasses fitted. Inquire of Dr. R. F. King or Mad-Ox Drug Store. One regular monthly visit—3rd Monday each month.

several days past but is able to be up now.

Brs. Nettles, Robinson and Dame are holding a successful meeting at Center.

Bro. Howell of Stratford will preach here Sunday morning and Bro. Bohannon from Vanoss will preach here Sunday evening.

Floyd South of Egypt was the guest of Guy Griffith Wednesday.

Several of the Lanham people have been attending the meeting at Somers Chapel.

Mr. and Mrs. Taylor Lanham and family were the guests of Mr. and Mrs. Staats Sunday.

Malissa Ruppee was shopping in Stratford Tuesday.

Entertainment in the Home.

A Louisville barrister escorted his wife and daughter to a lecture and then to his wife's annoyance disappeared. He was on hand, however, when the meeting was over.

"Hello, there, Theodore," said a friend, meeting the barrister and his family in the street car, "been to the lecture?" The lawyer stole a look at his wife's face.

"No," he answered, "just going."

Up-to-Date.

Uncle Mose, a plantation negro, was being asked about his religious affiliations.

"I's a preacher, sa," he said. "Do you mean," asked the astonished questioner, "that you preach the gospel?"

Mose felt himself getting into deep water.

"No sah," he said. "Ah touches that subject very light."

Taft Will Veto Statehood Bill.

Washington, Aug. 10.—Word was received at the capital today that President Taft unquestionably will veto the New Mexico and Arizona statehood bill. The objection is to the judiciary recall which was left in the Arizona constitution.

Senator Kenyon, of Iowa, was the only progressive republican who voted against the bill. At first it appeared that Bristow had opposed it but this proved to be an error.

NOTICE OF ELECTION.

Notice is hereby given that a special election will be held in the City of Ada, Oklahoma, on the 21st day of August, 1911, for the purpose of submitting to the qualified voters of said city the question:

"Shall the City of Ada, Oklahoma, sell the Eighty (80) feet of lots 1, 2, 3, 4 and the west eighty (80) feet of the North five (5) feet of lot 5, of block One Hundred Five (105), together with the Twenty (20) feet formerly used as an alley in said block, but now owned by the City of Ada, Oklahoma, making in all One Hundred (100) feet in said block One Hundred Five (105) of said City, particularly described as follows, to-wit: Beginning at the N. W. corner of the City Hall, thence One Hundred feet west on Twelfth street; thence One Hundred Five (105) South, thence One Hundred feet East; thence One Hundred five (105) feet North to point of beginning.

() "Yes"
() "No"
The places of holding said election in said city shall be as follows, to-wit:

In Ward No. 1, at City Hall.
In Ward No. 2, at Ada National Bank building.

In Ward No. 3, at Old Court House.
In Ward No. 4, at Texas Wagon Yard.

The following judges and clerks are hereby appointed to hold said election in their respective wards, as follows, to-wit:

WARD NO. ONE.

Judges—J. T. Higgins and Jno. W. Beard.
Clerks—W. A. Alexander and E. R. Banks.

WARD NO. TWO.

Judges—J. H. Wood and Z. T. Henderson.
Clerks—R. E. Blanks and S. W. Hill.

WARD NO. THREE.

Judges—M. Hively and A. J. Deaton.
Clerks—Jno. H. Jones and W. H. Nettles.

WARD NO. FOUR.

Judges—M. Johnston and W. H. Fisher.
Clerks—Bascom Lawson and P. H. Deal.

That the polls at such voting places shall be opened at 6 o'clock A. M. and be kept open continuously until 7 o'clock P. M. on said date.

Dated at Ada, Oklahoma, this the 8th day of August, 1911.

(SEAL) S. E. CHAPMAN, Mayor.
Attest: W. B. JONES, City Clerk.

To the Public.

We have lately overhauled our mill and installed some new machinery including the latest up to date methods in modern milling which enables us to make the clearest flour that is possible to be made from wheat.

In order to introduce our new flour and convince you that there is no better made we will sell until further notice at \$1.00 and \$1.10 a sack.

Patronize Home Industries.

All things being equal people should patronize home industries thereby helping to build up your city and county.

But we don't want to take advantage of that fact in order to sell you inferior flour. Ada flour stands on its own merits and is second to none in the state. Remember that our mill pays taxes in your city and county.

So try our flour and if you like it continue to buy it thus helping to build up a home institution.

FOLEY KIDNEY PILLS
FOR RHEUMATISM KIDNEYS AND BLADDER

DURANT GETS FIRST BALE OF SEASON

Durant, Okla., Aug. 10.—The first bale of the 1911 cotton crop reached this city yesterday afternoon.

The cotton was raised by Mr. J. R. Wood who lives two miles west of Platter on the Huck Love farm.

Mr. Wood states that he paid the pickers \$1.50 per hundred for the picking, and the average day's gathering was 135 pounds to the hand.

Mr. Wood is an elderly gentleman, but is of the get-up-and-get sort and goes about with the alacrity common to the 18-year old fellow. He states cotton is opening very fast, and that picking will soon be common. No boll weevil yet, and there is not much fear of any. Cotton in his section is fine and promises well.

This bale, being ginned here, weighed in the seed 1300 pounds. It was sold at auction on Main street at 3 o'clock, being purchased by J. W. Bailey of the Bailey-Davis Hardware Co., the price being 14 1-2 cents. Mr. Wood received a premium of \$25, the amount being given by Durant business men.

Interurban War in Prospect.

Oklahoma City, Ok., Aug. 9.—Contest between the Patterson interests and the Oklahoma Railroad Company, the two owning all the Oklahoma City street car system for control of the Shawnee and Oklahoma City Interurban travel, began in earnest today when following the increasing the capital stock of the Oklahoma-Shawnee Interurban Railway Company to \$3,000,000, the Oklahoma City and Eastern Railway Company with capital of \$100,000 was chartered by Secretary of State Harrison. The Patterson line was granted a charter several years ago, but the last filing changed the route by providing for a line from Oklahoma City to Shawnee and Tecumseh and north to Chandler from Shawnee. Eastern offices are authorized in St. Louis and New York.

The Oklahoma City and Eastern Railroad company, being the Shattell and Classen interests, is projected for ninety miles and the route includes Oklahoma, Lincoln, Pottawatomie, Seminole, Okfuskee and Okmulgee counties to the town of Okmulgee and contemplates the construction of a plant and interurban railroad costing \$3,000,000. It also will contest the interurban line projected by ex-Gov. Haskell and associates from Okmulgee to Oklahoma City, which is a continuation of the line from Okmulgee to Oklahoma City, proposed line from Fort Gibson to Muskogee, thence to Okmulgee, Tulsa and Sapulpa.

Incorporators of the Oklahoma City and Eastern were J. J. Johnson, Charles Hoopes, W. J. Mouse, Fred S. Coombs and M. L. Spittler.

If Your Head Aches You Should Take the Sure Remedy Hicks' CAPUDINE

There's a cause for every headache—Capudine reaches that cause quickly, whether it be heat, cold, gripp, or stomach troubles—and cures, even though it be sick or nervous headache.

To Owners of Real Estate In Pontotoc County

There are frequently found, upon examination, unknown and unsuspected clouds upon the title of real estate, such as unpaid taxes, uncancelled mortgages, mechanic liens, judgments, deeds of conveyances defective in signature, in acknowledgment or description, adverse claimants, errors made by conveyancing officers, and innumerable other defects, any of which may exist, all unsuspected by the owner, who fondly believes his title clear, but who really knows nothing about it, because he has never had an investigation made, and an abstract of title prepared. Most of these clouds and defects could be cleared and cured were their existence known in time; but they lay dormant and are not discovered until the owner is rudely awakened from his fond dream of security by some progressive speculator or purchaser offering a good round price for his property, but demanding an abstract of title as the first condition of the sale.

YOURS TRULY,

Pontotoc County Abstract Co.
C. T. Angel, Sec.-Treas.

FOLEY KIDNEY PILLS
FOR BACKACHE KIDNEYS AND BLADDER

CRAWFORD MAY SUCCEED BRANSON

Today's Oklahoman has the following to say concerning Jno. P. Crawford:

"Representative John P. Crawford of Ada seems to be the choice of the administration for chairman of the democratic state central committee to succeed Fred P. Branson of Muskogee. It is also understood that Crawford will get the support of a large part of the Haskell wing of the Oklahoma democracy. Robert Galbreath of Tulsa, the only other candidate so far announced for the place, seems to be running altogether on his own hook, and without the backing of any considerable element of the party."

When asked about the report by a representative of the News, Mr. Crawford expressed his surprise, saying that the matter had not been mentioned to him, and that he had no idea how the boom originated.

However, it occurs to the News that no better choice for the position could be made than Jno. Crawford. He has all the attributes of an adroit leader, and something like that will be needed in the next campaign.

Extraordinary Game of Ball.

Spokane, Wsh., Aug. 10.—Walter Shore's Wonder, a team of local men wearing artificial limbs, and Joseph Adams' Mastadons, composed of nine men weighing 2,825 pounds, played a match game of baseball at Recreation park, Spokane, on August 5 for the benefit of Viola M. Schumacher, 16 years of age, who was crippled in a railroad accident last March. The game was largely attended and provided funds to pay the girl's hospital bills and buy an artificial leg. The Wonders claimed the game by a score of 37 to 19, but Fred S. Radcliff, formerly sheriff of Whitman county, Wash., declares the Wonders got away with it by the score of 23 to 7. Radcliff, who weighs 410 pounds, caught for the fat boys, the pitcher being Dr. T. E. Callahan, 290 pounds, who played professional ball in Baltimore, Md., years ago. The lightest man on the Mastadons' team was Geo. Brownlee, 240 pounds, others weighing from 250 to 300 pounds. Eight players on the Wonders' team wear artificial legs, and Manager Shore has a wooden arm. Both teams are pleased over the showings made and another game may be played in two weeks.

BOARD OF EDUCATION HEARING AUG. 17

Oklahoma City, Ok., Aug. 9.—Gov. Cruce announced tonight that hearings on charges made against members of the state board of education would begin before him at 2 p. m., Aug. 17. It has not been determined whether the sessions will be public or executive.

The governor expressed himself in favor of public sessions, so that the people might be informed.

"In case there is nothing to sustain the charges," said Gov. Cruce, "I do not want it said that it was done privately, and charged as being a 'whitewash.'"

The governor states that he would leave that matter, however, to the board.

Charges filed against the board are in effect that the board has been playing politics in the selection of teachers and heads of institutions, and that the competent teachers have been released without excuse on the board's part. The charges also lay stress upon the campaign before the last legislature in favor of board's creation, when its advocates assumed that it would be the means of divorcing the institutions from politics.

Beer Flows Through Sewers.

Chickasha, Ok., Aug. 9.—Chickasha's sewers ran full with beer today. Sheriff Lewis publicly destroyed 150 barrels of beer that had been confiscated on raids by his deputies. A connection was made with the sewer in the court house yard, and the confiscated liquor was poured directly into the sewer. The beer destroyed represented the liquor confiscated by the sheriff's force within six months.

Insurance Fees Enrich State.

Oklahoma City, Aug. 10.—The state insurance department is preparing a report which shows that the office since statehood, November 19, 1907, has turned into the state treasury \$626,392. During that period the total expenses of the office have been but \$33,676, the remainder collected representing the net income to the state from the department.

The People Who Put the Price Down

JURY COMPOSED OF WOMEN COULD NOT AGREE

San Francisco, Aug. 10.—Feminine juries are no good. In fact, they are worse than that. They are a nuisance.

That is the decision of Superior Judge Graham since an experiment with twelve "juryettes" this morning. The court holds the highest regard for womankind in its place but he is certain that the place is not in the jury box.

Judge Graham had an unusually perplexing problem to solve this morning in deciding who should be given the custody of four-year-old Mary Ellen Callahan, whose parents Fabian and Catherine Callahan are divorced. Both parents wanted the little one and both had good reasons for asking the custody of the babe.

Thinking that the advice of women who have had children of their own might avail much Judge Graham invited twelve women present in the court room to occupy the jury box and help him solve the problem.

The ladies promptly accepted. After fifteen minutes spent in adjusting their hats and applying the powder rag, the "juryettes" announced them-

selves ready to hear the evidence. They listened patiently and at the conclusion of the testimony Judge Graham asked for their opinion.

They All Talked at Once.

The "juryettes" did not hesitate a minute. They all tried to talk at once. Each seemed to have a different opinion and Judge Graham was taken aback at their actions. The discussion waxed louder and louder and in a few minutes the "juryettes" had deserted the case at issue entirely and were expressing their opinions of each other.

They failed signally to agree on anything and after an unfettered expression, each of the other eleven the jury was summarily discharged. It took Judge Graham some time to make himself heard and three bailiffs were busy rapping for order although none dared approach the jury box.

"This jury has evidently been packed by both parents," declared Judge Graham solemnly. "I am astonished at your unseemly behavior. You are dismissed."

Mary Ellen was then given into the custody of the convent of Notre Dame pending further order of the court.

The "juryettes" smiled and each

thought that was the best thing that could have been done.

SANITARY OFFICER NOT PLEASED WITH CONDITIONS

Today Pter Biewer, special state sanitary inspector, was making an examination of conditions in Ada. He was not at all favorably impressed with what he found, and says that a general clean-up is imperatively needed and must be had at once.

Mr. Biewer was superintendent of the health department of Oklahoma City for four years, and under his management the department reached a high point of efficiency.

The City and County Directory.

Mr. Mills is still at work soliciting for the city and county directory being issued by the News. It is a gigantic undertaking, but the News hopes to be able to get out a book that will be worth good money to everyone concerned.

EGYPT SCRAPS.

The farmers are rejoicing over the good season.

Health in this community is good. Sunday school was not attended well Sunday.

Miss Jessie and Lizzie Williams and Arch and Andrew Jones were the welcome visitors at Egypt Sunday. Hope they will come again.

Miss Mary Steele was the guest of Miss Bessie Danley Sunday.

Mr. Ragland was the guest of Mrs. Martin Wednesday.

HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which—despite the most beneficent environment of soil—of sunshine—and of atmosphere,—seemed never to achieve a healthy growth.

A ton of manure will not help a plant that has a canker eating out its heart. You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vasoline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out. Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.
